

Skilled staff with 15 years marketing and advertising experience put to work for you

Marketing and Advertising is crucial for business to succeed. We assist by adding mobile marketing options to your current marketing plan to increase exposure in the ever changing mobile economy. Our text messaging options are affordable and simple to use.

We work with your budget so that your business goals are achieved

Do you have a current marketing budget? Do you need our mobile marketing expertise on a regular basis? Do you simply need to add us to your current marketing team? We will propel your business into the 21st Century with currently available mobile technology solutions.

Deployment and full technical team support are part of each project that we undertake

A marketing program is only as good as its support staff. Once a project has been carefully programmed and executed we provide 24 hour email support as well as a call center. Use us to make your business successful.

SOME NEWS

Technology

Our patented, state of the art software was developed from the ground up. It is written in PHP and is using a MYSQL Database. This along with Javascript and HTML code are the foundations of our system.

Guidelines

W8TER.COM follows in accordance with the Mobile Marketing Association. We ask our clients to adhere to these guidelines so together we can create a favorable customer experience.

Benefits

Your business may begin to be more productive while spending less time managing customers.

Reporting options can assist with analyzing trends.

Streamlined communication can assist with customer satisfaction.

Customer loyalty and repeat business can result.

Customers can be anywhere and receive messages.

Revolutionize customer relations using current technologies.

Broadcast current business happenings to increase sales.

Customize your Software

Just Ask. Occasionally owners and managers have specific needs depending on their business model. We encourage and welcome participation. Simply talk to us and express your wishes.

Create a Customer Database

Begin Now. Businesses have the opportunity to develop a relationship with their customers. Track who is buying, how much they are spending and what are their favorite products. Simply begin to get to know your customer.

Broadcast Messages Efficiently

Start Immediately. Our system is "set it and forget it" technology. Change the delivery time or date of the messages at your leisure. Let W8TER.COM work for you. The technology is there and the key is to begin to integrate it into your business.
